

GEOG. 2460G
INTRODUCTION TO URBAN DEVELOPMENT
Course Outline
Winter Term 2013

Instructor: Dr. Godwin Arku
Office: SSC 2427
Office Hours: Wednesdays 1 - 2:30pm or by appointment
Phone: Ext. 85343
Email: within OWL

Teaching Assistants:

Name:	Richard Sadler	Thomas Thayer
Office:	SSC 1428	SSC 2436
Email:	rsadler4@uwo.ca	tthayer2@uwo.ca
Office Hours:	Thu 2-4pm or by appointment	Tue 2:30-4:30pm or by appointment

	Days	Time	Room
Lectures/Tutorial	Thursdays	10:30-1:30	SSC—2024

COURSE DESCRIPTION

Urban areas do not only vary in their form, structures, morphology, patterns of land use, and historical processes of evolution, but they are driven by a series of interrelated processes of change—economic, political, cultural, demographic, technological, environmental, social and locally contingent forces. These forces operate at a variety of geographical scales ranging from the global to the local. The task of this course is to understand the processes and the character of urban areas. In doing so student will be exposed to: 1) the factors that gave rise to early cities; 2) models and theories that exist to explain urban growth; 3) various distinct structures and form of urban areas; 4) urban development processes and forces driving these processes; and 5) government policies and urban management strategies. The course will be delivered in various formats: formal lecture, in-class and tutorial discussions, guest lectures, and videos. By the end of the course students should be able to apply various constructs to real world urban issues.

COURSE PREREQUISITES: 1.0 course from Geography 1100, 1300A/B, 1400F/G, 1500F/G, or the former Geography 020E. Unless you have either the requisites for this course or written special permission from your Dean to enrol in it, you may be removed from this course and it will be deleted from your record. This decision may not be appealed. You will receive no adjustment to your fees in the event that you are dropped from a course for failing to have the necessary prerequisites.

LEARNING OBJECTIVES

After completing the activities associated with the course, students should:

1. Be familiar with concepts and theories and how they help us understand urban development
2. Have a clear understanding of the characters of urban areas and spatial relationships between various urban regions
3. Have a clear knowledge of urban processes and the forces (e.g. geographical, economic, social) that influence urban development
4. Have a good knowledge on global urbanization trends and its associated problems
5. Be able to conduct a financial feasibility analysis on a development using a return on investment model
6. Be familiar with planning conflicts issues in specific urban locality.

READINGS

There are two useful readings for the course:

1. David H. Kaplan, James O. Wheeler, and Steven R. Holloway (2009) Urban Geography. 2nd Edition. WILEY: John Wiley & Sons, Inc.
2. Paul L. Knox, and Linda McCarthy (2005) Urbanization. Second Edition. Pearson Prentice Hall: Upper Saddle River, New Jersey.

Several sections of these books will be used throughout the course. Other readings materials (e.g. articles, reports) will also be made available on the course's website.

EVALUATION METHODS

There is one MAJOR assignment in this course. This assignment is however divided into three components. Additionally there is mid-term and final examination. Both the mid-term and final examination will assess the knowledge gained from all lectures and assigned reading materials. The exams will be a combination of multiple choice questions, fill in the blanks, and short answer questions. No electronic devices will be allowed during an examination. Study guides will be distributed prior to the exam to help you focus on specific areas of study. The breakdown of marks is as follows:

First component of major assignment:	7%
Second component of major assignment:	8%
Final Major Project:	35%
Mid-Term Examination:	15%
Lecture and Tutorial Participation:	5%
Final Examination:	30%

IMPORTANT DATES TO REMEMBER

Thursday February 7, 2013	Component # 1 Due in Class
Thursday February 14, 2013	Mid-Term Examination in Class
Thursday February 28, 2013	Component # 2 Due in Class
Thursday March 21, 2013	Major Project Due in Class
TBA, April 2013	Final Examination

POLICY STATEMENTS

Attendance of the lectures and tutorials is not optional. Your participation mark (5%) is based on regular attendance in tutorial. As a result, students are expected to attend all lectures and tutorials and are strongly encouraged to read relevant chapters in the required text or articles before coming to these classes. The teaching assistants will keep track of attendance at all tutorials and Guest Lectures.

NOTE 1: Unless permission is granted students cannot absent themselves from guest lectures. Failure to attend guest lectures will attract a heavy penalty, mostly likely zero score for class participation mark.

NOTE 2: Five percent (5%) points per weekday (weekends count as one weekday) will be deducted from late assignments. Assignments will not be accepted if handed in more than one week after the due date

NOTE 3: All emails should be sent within OWL. Please **DO NOT** use my regular email address.

COURSE WEB PAGE (OWL)

During the term, information pertaining to lecture, examination, assignments and other course-related matters will be posted on the course's website. Please note that copies of my lecture overheads/ppt

presentations will also be posted at the beginning of each week. These are for review purposes only. The overheads provide only a very condensed overview of the material covered in class. They do not constitute adequate notes by themselves, and are **no substitute for regular attendance of lectures**. Students are encouraged to familiarize themselves with UWO’s Policy on Accommodation for Medical Illnesses (<https://studentservices.uwo.ca/secure/index.cfm>).

PLAGIARISM/ACADEMIC MISCONDUCT

“Students must write their essays and assignments in their own words. Whenever students take an idea, or a passage from another author, they must acknowledge their debt both by using quotations marks where appropriate and by proper referencing such as footnotes or citations. Plagiarism is a major academic offence (see Scholastic Offence Policy in the Western Academic Calendar).”

Scholastic offences are taken seriously and students are directed to read the appropriate policy, specifically, the definition of what constitutes a Scholastic Offence, at the following Web site:

<http://www.uwo.ca/univsec/handbook/appeals/scholoff.pdf>

LECTURE & TUTORIAL SCHEDULE

Week	Date	Topic/Lecture/Tutorial Information	Reading
1	Thu Jan 10	<ul style="list-style-type: none"> - Introduction to the class/course requirements - Urbanization and Urban Geography - Urban concepts and definitions - Urbanization processes and outcome 	Kaplan et al. (2009) Chap 1; Knox & McCarthy (2005) Chap 1; Ford (1994)
2	Thu Jan 17	<p><i>LECTURE</i></p> <ul style="list-style-type: none"> - The origins and growth of cities - The evolution and development of American urban systems <p><i>TUTORIAL</i></p> <ul style="list-style-type: none"> - Introduction to the major project 	Kaplan et al. (2009) Chaps 2 & 3; Knox & McCarthy (2005) Chaps 2 & 3; Vance, 1998; Girardet, 2004, pp. 20-39
3	Thu Jan 24	<p><i>LECTURE</i></p> <ul style="list-style-type: none"> - Evolution and development of Canadian urban systems and current trends - Guest Speaker – Sean Galloway (Urban Designer, City of London Planning Division) 	Hiller (ed.) (2010) Chap 2; Bunting, Filion, & Walker (2010) Chap 2; Bourne & Simmons (2003)
4	Thu Jan 31	<p><i>LECTURE:</i></p> <ul style="list-style-type: none"> - Globalization and urbanization – trends and related issues - Help with research project 	Kaplan et al. (2009) Chap 4; Ploeg & Poelhekke (2008)
5	Thu Feb 7	<p><i>LECTURE: Models & Theories of Urban Spatial Structure</i></p> <ul style="list-style-type: none"> - Sjobergs’s model of pre-industrial city - Burgess concentric zone model - Homer Hoyt’s model of urban structure - Harris and Ullman’s Multiple Nuclei Model - The Bid-Rent Theory of urban land use <p><i>TUTORIAL</i></p> <ul style="list-style-type: none"> - Introduction of second component of major 	Kaplan et al. Chap 8; Alonso (1965); Vance (1971)

		project - Mid-term review	
--	--	------------------------------	--

6	Thu Feb 14	***MID – TERM EXAMINATION*** Guest Speaker: Phillip R. Masschelein (Vice President, Neighbourhood Developments)	
7	Thu Feb 21	*** READING WEEK – NO CLASS ***	
8	Thu Feb 28	<i>LECTURE</i> - Urban Development Actors: “city makers” - Competing interest among development actors <i>TUTORIAL</i> Detailed information session on major project	Knox & McCarthy (2005) Chap 11; Arku, Kemp & Gilliland (2011)
9	Thu Mar 7	<i>LECTURE</i> - The Central Business District (CBD): rise, decline, redevelopment & revitalization - Suburbs: evolution, types, functions, and planning challenges - Debates about sprawl <i>TUTORIAL</i> - Help with project	Kaplan et al. (2009) Chap 6; Bowden, 1971; Bunting & Filion (2006) Chap 12; Jackson (1985)
10	Thu Mar 14	<i>LECTURE</i> - Neighbourhood change, residential structure, migration and filtering - Case study of regent park, Toronto. <i>TUTORIAL</i> - Help with project <i>Video # 1</i>	Kaplan et al. (2009) Chaps 7 & 9
11	Thu Mar 21	<i>LECTURE</i> - Emerging Urban Forms in the Canadian City	Bunting, Filion, & Walker (2010) Chap 18
12	Thu Mar 28	<i>LECTURE</i> - Development of modern planning: models Policy instruments for managing urban growth <i>TUTORIAL</i> - <i>Video # 2</i>	Kaplan et al. (2009) Chap 13; Clark (2003)
13	Thu April 4	Course Review and Exam Matters
