Germaine Tuyisenge	SSC 2254	Mondays 2:30-3:30	gtuyisen@uwo.ca	

Description: A systematic study of the patterns and places produced by human activity. The course examines the spatial dynamics of social, cultural, economic and historical processes and describes their impact on the natural and built environments and how they create diverse human landscapes.

Anti-requisite(s): Geography 021 or the former Geography 020E. 2 lecture hours, 2 laboratory hours, 0.5 course.

INTRODUCTION

The major purpose of this course is to introduce students to the nature of human geography as an academic discipline and as a body of useful knowledge through a survey of some of the field's central problems, concepts, methods and applications. Human geography enables us to reflect upon some of the most important issues of contemporary society including: cultural diversity, environmental degradation, ethnic conflicts, globalization, poverty, racism, religious differences, overpopulation, transportation ills and urban sprawl Doing so provides a critical interpretation of the human inhabitation of the earth and the differences between, and the similarities amongst, people and the places and landscapes they create. By examining the cultural, economic, historical and social processes that create the spatial patterns and spatial relationships that modify the natural and built environments, both a foundation for subsequent human geography courses will be laid, and an ability to inspect more critically the student's own place in the world.

COURSE MATERIALS

- 1) Textbook: William Norton (2013) Human Geography. 8th Edition. (ISBN # 978-0-19-544855-9) (Available for purchase at Western's book store in UCC)
- 2) Labs and other relevant reading materials will be posted on the course website in WebCT or will be emailed to your UWO email address.
- 3) You are expected to bring a laptop

EVALUATION METHODS

You will complete five (5) lab exercises in this course. Additionally there is one mid-term and a final examination. The mid-term will assess the knowledge gained from all lectures and tutorial works in the first half of the course. The final examination will assess material from the primarily the second half of the course but may include material from the entire course. The exams will be a combination of multiple choice and short answer questions. Study guides will be distributed prior to the exam to help you focus on specific areas of study. The breakdown of marks is as follows:

5 Lab Assignments: 30% Mid-Term Examination: 25% Tutorial/Lab Participation: 15% Final Examination: 30%

ATTENDANCE POLICY

Attendance of the lectures and tutorials is not optional. Your participation mark of 15% is based on regular attendance and contributions in tutorials. As a result, students are expected to attend all labs/tutorials and are strongly encouraged to read relevant chapters in the required text before coming to these classes. The tutorial instructors will keep track of attendance at all tutorials and labs. Students are encouraged to familiarize themselves with UWO's Policy on Accommodation for Medical Illnesses (https://studentservices.uwo.ca/secure/index.cfm).

COURSE WEBSITE (WebCT)

During the term, information pertaining to lectures, examination, labs and other course-related matters will be posted on the course's website. Please note that copies of the lecture overheads/ppt presentations will also be posted on Sunday evenings. Students are encouraged to print out the lecture overheads before coming to class. Note that lecture overheads are for review purposes only. The overheads provide only a very condensed overview of the material covered in class. They do not constitute adequate notes by themselves, and are **no substitute for regular attendance of lectures**.

PLAGIARISM/ACADEMIC MISCONDUCT

"Students must write their essays and assignments in their own words. Whenever students take an idea, or a passage from another author, they must acknowledge their debt both by using quotations marks where appropriate and by proper referencing such as footnotes or citations. Plagiarism is a major academic offence (see Scholastic Offence Policy in the Western Academic Calendar)." Scholastic offences are taken seriously and students are directed to read the appropriate policy, specifically, the definition of what constitutes a Scholastic Offence, at the following Website:

http://www.uwo.ca/univsec/pdf/academic_policies/appeals/scholastic_discipline_undergrad.pdf

LECTURE SCHEDULE AND TEXTBOOK READING ASSIGNMENT

Date	Lecture Topic	Reading	
January 6	Introduction to the course; What is Geography?	Introductory Chapter	
	What is Human Geography? Why Human Geography?	(p. 3-11) & Chapter 1	
	Themes in Human Geography	(p. 30-32, 34-35)	
January 13	Studying Human Geography - Using Maps; Philosophical	Chapter 2 (p. 39-73)	
	Options; Geographic Concepts		
January 20	Human Impacts on Natural Environment	Chapter 4 (p.117-157)	
January 27	Geography of Population: Fertility; Mortality;	Chapter 5 (p.161-202)	
	Distribution and Density; Migration		
February 3	Cultures, Landscapes, Identities & Places –	Chapters 7 (p.248-249,	
	Guest Lecture- Dr. Jeff Hopkins	& Chapter 8 (294-324)	
February 10	MID-TERM EXAMINATION – In Class		
February 17	NO CLASS – FAMILY DAY/READING WEEK		
February 24	Globalization	Chapter 3	
	Guest Lecture- Dr. Richard Sadler		
March 3	Landscapes of Primary Activities – Agriculture	Chapter 10	
March 10	Settlement Geographies- Origins and Growth of Cities,	Chapter 7 (p.250-262)	
	Settlement Patterns, and the evolution of cultural regions	& Chapter 11	
		(p. 431-465)	
March 17	Urbanization –Planning, Transportation, and Living &	Chapter 12 (p.470-	
	Working in the City	473, 487-508) &	
		Chapter 13	
March 24	Landscapes of Secondary Activities – Industrial	Chapter 14	
	Revolution; Industrial Location		
March 31	The Geography of Development	Lecture Slides and	
		WebCT Readings	
April 7	Conclusion – where next?	Concluding Chapter	
	- Course Review and Exam Matters		

Tutorials and Labs

Each student will meet weekly as a participant in a smaller group led by a tutorial instructor. The group meetings will serve three major purposes:

- 1. They provide students the opportunity to explore issues and discuss material in greater depth than was covered during the weekly lecture;
- 2. They provide students with some hands-on exposure to research techniques in human geography;
- 3. They provide an opportunity for you to beginning writing on topics in geography

TUTORIAL/LAB SCHEDULE

Week of	Торіс	Readings and Resources	
January 6	Tutorial 1: The Nature of Geography	Cutter et al. 2002	
January 13	Lab 1: Using Topographic Maps	Ruler, Pen, Paper	
	(must be completed in lab, no take home option)		
January 20	Lab 2: Human impacts on the Natural	Camera	
	Environment (due week of Jan 27 th)		
January 27	Tutorial 2: The Population Debate	Video – <i>How many people</i>	
		can live on Planet Earth?	
February 3	Tutorial 3: Does Geography Still Matter?	Series of short feature articles	
February 10	MID-TERM EXAMINATION – No Tutorials		
February 17	NO CLASS: FAMILY DAY/READING WEEK		
February 24	Lab 3: The Supermarket Tour	CBC Video: Product of	
-	(due week of March 3 rd)	Canada, EH? Misleading	
		Food Labels	
March 3	Lab 4: Agriculture in Canada	CBC Video – Broken	
	(due week of March 17 th)	Harvest	
March 10	Tutorial 4: World Cities Debate- who is next?	TBD	
March 17	Tutorial 5: Urban problems	Video – Unheard Voices	
March 24	Lab 5: Geography of Industry	Fort McMoney Docu-Game	
	(due week of April 7 th)		
March 31	Tutorial 6:	TBD	
	MDG Exercise		
April 7	NO LABS/TUTORIAL		
	***Lab 5 due to tutorial instructor by start of		
	your regular tutorial session***		

Tutorial Information

Some labs/tutorials will be completed in class. If you miss a lab/tutorial due to illness, please attend another lab/tutorial section that week. If you cannot attend any lab/tutorial during a week, please submit appropriate documentation to your TA, in advance of the dates to be missed. If you are unable to submit a lab <u>and have appropriate documentation</u>, this portion of the mark will be transferred to the final examination. Participation is based on attendance and contributions to discussions in the labs. This will include participation in lab debates and in-class field exercises

Prerequisite Checking: The student's responsibility

"Unless you have either the requisites for this course or written special permission from your Dean to enroll in it, you may be removed from this course and it will be deleted from your record. This decision may not be appealed. You will receive no adjustment to your fees in the event that you are dropped from a course for failing to have the necessary prerequisites."

Use of Electronic Devices

No electronic devices will be allowed during tests and examinations.

Support Services

If you or someone you know is experiencing distress, there are several resources here at Western to assist you. Please visit the site below for more information on mental health resources: http://www.uwo.ca/uwocom/mentalhealth/.

Registrar Services: http://www3.registrar.uwo.ca/index.cfm Student Development Services: http://www.sdc.uwo.ca/

Mutual Expectations

Students can expect the professor to come prepared for, and attend, all lectures regularly and punctually. I will provide a collegial atmosphere of mutual respect conducive to the exchange of ideas and the process of learning. My demands are the same from you. Reading newspapers during a lecture, disturbing your classmates, littering the classroom and the use of entertainment electronics are unacceptable. By abiding to this code of mutual civility and respect, we set the stage for a safe, healthy and stimulating intellectual forum. Thank you for your co-operation.

Finally, if you have problems with the course, please seek assistance from your peers, your tutorial instructors, and me during my office hours. We are all approachable and welcome your questions. We do hope that you enjoy the course!

<u>PLEASE NOTE</u> Course content and order of presentations may deviate from this general outline due to unforeseen circumstances.
