GEOGRAPHY 3222 Geographic Information Science II Course Outline

Winter 2016

Instructor Information

Instructor: Dr. Jinfei Wang, Professor, Department of geography

Office: SSC. 2402; Tel: (519)661-2111 ext.85017; E-mail: jfwang@uwo.ca

Office hours: Monday 2:30 - 4:30 pm

Teaching Assistant: Chunhua Liao

Office: SSC 2430; Email: cliao33@uwo.ca

Office Hours: Wednesday 4:30-5:30 pm; Thursday 4:30-5:30 pm

Course Information

Lecture: Wednesday 2:30 - 4:30 pm, SSC 3024

Labs: Thursday 2:30 - 4:30 pm, GISc Lab (SSC. 1316A)

Course Description

Methods and techniques in Geographic Information Science. Spatial data encoding from maps and geographic database implementation. Spatial interpolation and other modeling techniques. Integration of remote sensing, GIS, and Visualization. Hands-on experience using ESRI ArcGIS software.

Prerequisite(s): Geography 2210A/B and Geography 2220A/B 2 lecture hours, 2 laboratory hours, 0.5 course.

Adequate mathematical background is needed to be successful.

Prerequisite checking - the student's responsibility

You are responsible for ensuring that you have successfully completed all course prerequisites, and that you have not taken an anti-requisite course. Lack of prerequisites may not be used as a basis for appeal. "Unless you have either the prerequisites for this course or written special permission from your Dean to enroll in it, you may be removed from this course and it will be deleted from your record. This decision may not be appealed. You will receive no adjustment to your fees in the event that you are dropped from a course for failing to have the necessary prerequisites."

Course Materials

Required Textbook (available in the bookstore):

Peter A. Burrough, Rachael A. McDonnell, and Christopher D. Lloyd, 2015, *Principles of Geographical Information Systems* (3rd Ed.). Oxford University Press. (ISBN: 9780198742845)

Recommended Readings

Longley, P.A., M.F.Goodchild, D.J.Maguire, and D.W.Rhind, 2016. *Geographic Information Systems and Science* (4th Ed.). John Wiley & Sons, Inc., 469 p. (978-1-119-03130-7 or ISBN: 978-1-118-67695-0).

Bolstad, Paul, 2012. GIS Fundamentals: A First Text on Geographic Information Systems (4th Ed.). Eider Press, White Bear Lake, MN, USA. 674 p. (ISBN 978-0-9717647-3-6).

Chang, K.T., 2014. *Introduction to Geographic Information Systems* (7th Ed.). McGraw Hill, 418 p. (ISBN 978-0-07-780540-1).

Method of evaluation

Lab. Assignments (4 labs)	40%		
Attendance and participation			
Midterm Test (March 9, 2:30pm-4:20pm, SSC 3024			
Scientific calculators are permitted; No other aids)	25%		
project Presentation			
Term Paper (Due April 6, 2016)			

Course Requirements

- 1. Attendance and participation: Each student is required to attend all the lectures and labs. Attendance may be taken randomly during any lecture and lab session. Participation in class/project discussions and lab activities may be counted.
- 2. Term test: All students are required to take the term test. Non-programmable scientific calculators are permitted. No other electronic devices are permitted. No other written aids are allowed. No make-up test will be given unless under extreme circumstances. If you consider that you have grounds to write the term test on an alternate date, you must obtain permission from the Dean's office and provide sufficient documentation. In addition, you must inform the instructor at least 2 days in advance before the term test.
- 3. Lab assignments and the GIS project:
 - You must attend all labs. You should observe all the due dates for the lab assignments and the GIS project. Assignments are due at the beginning of the lab hours of the assignment due dates. Plagiarism or copying is unacceptable. If there are two identical answers to the lab. or parts of the lab., both students will be given a mark of 0 for that lab. Please follow the instructions for the GIS project. The penalty of a late assignment and late project paper is 2^n percent of the maximum mark for the assignment, where n = number of days late. (i.e., If you are late one day, 2% off; two days, 4% off; three days, 8% off; four days, 16% off; five days, 32% off; six days, 64% off; seven days, 100% off).
- 4. Academic offences: "Scholastic offences are taken seriously and students are directed to read the appropriate policy, specifically, the definition of what constitutes a Scholastic Offence, at the following Web site
 - http://www.uwo.ca/univsec/pdf/academic_policies/appeals/scholastic_discipline_undergrad.pdf."
- 5. "For UWO Policy on Accommodation for Medical Illness and a downloadable SMC see: http://www.uwo.ca/univsec/pdf/academic_policies/appeals/accommodation_medical.pdf.

Downloadable Student Medical Certificate (SMC)

http://www.uwo.ca/univsec/pdf/academic_policies/appeals/medicalform.pdf. Students seeking academic accommodation on medical grounds for any missed tests, exams, participation components and/or assignments worth 10% or more of their final grade must apply to the Academic Counselling office of their home Faculty and provide documentation. Academic accommodation cannot be granted by the instructor or department.

- 6. Required computer storage devices: One or two USB memory key, or a portable hard drive for storing data and results. I suggest that you double backup your work on two USBs, in case one USB has problems. Please note: do not insert your USB with the data from the Windows system to a Mac computer, since this may cause errors on your data.
- 7. Print credits: You will be given a limited number of free print credits for this course. If you need, you may purchase more credits for printing using the B/W laser printer(s) and colour laser(s) printer in the GIS lab. So make sure you check your print balance often. Consult your TAs for details.

Additional information

Please contact the course instructor if you require material in an alternate format or if you require any other arrangements to make this course more accessible to you. You may also wish to contact Services for Students with Disabilities (SSD) at 661-2111 x 82147 (http://www.sdc.uwo.ca/) for any specific question regarding an accommodation.

If you or someone you know is experiencing distress, there are several resources here at Western to assist you. Please visit http://www.uwo.ca/uwocom/mentalhealth/ for more information on these resources and on mental health.

Registrarial Services: http://www.registrar.uwo.ca/
Student Development Services: http://www.sdc.uwo.ca/

Lab assignments:

Lab 1 Download Geospatial Data from the Internet (10%)

Lab 2 Mini GIS Project (10%)

Lab 3 ArcGIS Model Builder and Finding the Least-cost Path (10%)

Lab 4 3D Building Model Generation from LiDAR data and its Application (10%)

Topics and Recommended Readings

Part 1. Introduction - GIS Overview

Readings: Burrough, *Principles of Geographical Information Systems* (3rd Ed.) Chapter 1

Part 2. Datum, Coordinate Systems and Map Projection

Readings: Bolstad, 4th Ed.: Chapter 3

Part 3. Geospatial Data

Readings: Burrough, *Principles of Geographical Information Systems* (3rd Ed.) Chapter 2; Chapter 3.

Part 4. Digital Elevation Models

Readings: Burrough, *Principles of Geographical Information Systems* (3rd Ed.) Chapter 11

Part 5. Cost Distance and Least Cost Path

Readings: ArcGIS online help.

Part 6. Spatial Interpolation

Readings: Burrough, *Principles of Geographical Information Systems* (3rd Ed.) Chapter 8; Chapter 9;

Part 7. Spatial Analysis - Raster Geoprocessing

Readings: Bolstad, 4th Ed.: Chapter 10; Chapter 11.

Part 8. Spatial Analysis – Vector Geoprocessing

Readings: Burrough, *Principles of Geographical Information Systems* (3rd Ed.) Chapter 7; Bolstad, 4th Ed.: Chapter 8; Chapter 9.

Part 9. Remote Sensing and GIS Integration

Reference: Bolstad, 4th Ed.: Chapter 6.

Part 10. GIS Case Studies

Tentative Lecture/lab Schedule

	Date of	Lecture topics	Labs	Lab due dates
	Monday	(Wednesday)	assigned	(Thursday)
Week 1	Jan.4	Introduction to the course;	No lab	
		1. GIS Overview		
Week 2	Jan.11	1. GIS Overview	Lab #1	
Week 3	Jan.18	2. Datum, coordinate systems	Lab #1	
		and map projection		
Week 4	Jan.25	3. Geospatial data collection	Lab #2	Lab#1 due
		4. Digital Terrain Modeling		
Week 5	Feb.1	5. Cost distance and least cost	Lab #2	
		path		
		6. Spatial interpolation		
Week 6	Feb.8	6. Spatial interpolation	Lab #3	Lab #2 due
		Discussion of project titles/topics		
Week 7	Feb. 15	Reading week		
Week 8	Feb.22	7. Spatial analysis - Raster	Lab #3	
		geoprocessing		
		8. Spatial analysis - Vector		
		geoprocessing		
Week 9	Feb.29	8. Spatial analysis - Vector	Lab #4	Lab #3 due
		geoprocessing		
		9. Remote sensing and GIS		
		integration;		
Week 10	Mar. 7	Midterm test, March 9, 2016	Lab #4	
		(2:30 am - 4:20 pm)		
Week 11		10. GIS/RS case studies	Lab #4	Lab #4 due
Week 12	Mar.21	GIS project presentations		
Week 13	Mar.28	GIS project presentations		
Week 14	Apr.4	GIS project presentations		Term paper
				due April 6

Last day of classes: April. 6, 2016.
